<HD1>B. Regulatory History and Information

Previously, temporary special local regulations regarding this maritime event have been published in the Code of Federal Regulations at 33 CFR 100.701. No final rule has been published in regards to this event. The proposed special local regulations are not new in their entirety, but merely reflect updates to certain details of the event.

<HD1>C. Basis and Purpose

The legal basis for the rule is the Coast Guard's authority to establish special local regulations: 33 U.S.C. 1233. The purpose of the rule is to insure safety of life on navigable waters of the United States during the Lauderdale Air Show.

<HD1>D. Discussion of Proposed Rule

From Thursday, April 18, 2013 through Sunday, April 21, 2013, Lauderdale Air Show, LLC. will be hosting the 2013 Lauderdale Air Show. The Lauderdale Air Show will include numerous aircraft engaging in aerobatic maneuvers over the Atlantic Ocean. It is expected that approximately 500 spectator vessels will be present in the area during the event. The high speed at which participant aircraft will be traveling and the maneuvers they will be performing pose a safety hazard to air show participants, participant aircraft, spectators, and the general public.

The Coast Guard is establishing two regulated areas for the 2013 Lauderdale Air Show. The two regulated areas are listed below.

1. Atlantic Ocean, Fort Lauderdale, Florida. Certain navigable waters of the Atlantic Ocean in the vicinity of Fort Lauderdale, Florida. This exclusion area will be enforced daily from 10:00 a.m. until 5:00 p.m. from April 18, 2013 through April 21, 2013. Persons and vessels are prohibited from entering, transiting through, anchoring in, or remaining within the regulated area unless authorized by the Captain of the Port Miami or a designated representative.

2. Port Everglades, Fort Lauderdale, Florida. Certain navigable waters of the Atlantic Ocean in the vicinity of Port Everglades in Fort Lauderdale, Florida. This limited access area will be enforced daily from 4:00 p.m. until 5:30 p.m. on April 20, 2013 and April 21, 2013. Vessels over 500 gross tons are prohibited from entering, transiting through, anchoring in, or remaining within the regulated area unless authorized by the Captain of the Port Miami or a designated representative.

Persons and vessels desiring to enter, transit through, anchor in, or remain within the regulated area may contact the Captain of the Port Miami by telephone at (305) 535-4472, or a designated representative via VHF radio on channel 16, to request authorization. If authorization to enter, transit

through, anchor in, or remain within the regulated area is granted by the Captain of the Port Miami or a designated representative, all persons and vessels receiving such authorization must comply with the instructions of the Captain of the Port Miami or a designated representative. The Coast Guard will provide notice of the special local regulation by Local Notice to Mariners, Broadcast Notice to Mariners, and on-scene designated representatives.

#### <HD1>E. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes or executive orders.

##### <HD2>1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders. The economic impact of this proposed rule is not significant for the following reasons: (1) The special local regulations will be enforced for a maximum of 7 and a half hours

each day for only four days; (2) non-participant persons and vessels may enter, transit through, anchor in, or remain within the exclusion area during their respective enforcement periods if authorized by the Captain of the Port Miami or a designated representative; (3) vessels 500 gross tons or more may enter, transit through, anchor in, or remain within the limited access area during their respective enforcement periods if authorized by the Captain of the Port Miami or a designated representative; (4) vessels not able to enter, transit through, anchor in, or remain within the regulated areas without authorization from the Captain of the Port Miami or a designated representative may operate in the surrounding areas during the respective enforcement periods; and (4) the Coast Guard will provide advance notification of the special local regulations to the local maritime community by Local Notice to Mariners and Broadcast Notice to Mariners.

#### <HD2>2. Impact on Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered the impact of this proposed rule on small entities. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities. This rule may affect the following entities, some of which may be small entities: the owners or operators of vessels intending to enter, transit

through, anchor in, or remain within any of the regulated areas during the respective enforcement period. For the reasons discussed in the Regulatory Planning and Review section above, this rule will not have a significant economic impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see <E T='02'>ADDRESSES</E>) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

#### <HD2>3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104-121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the <E T='02'>FOR FURTHER INFORMATION CONTACT</E>, above. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

#### <HD2>4. Collection of Information

This proposed rule will not call for a new collection of

information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520.).

#### <HD2>5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and determined that this rule does not have implications for federalism.

#### <HD2>6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the "For Further Information Contact" section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

#### <HD2>7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any

one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

<HD2>8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

<HD2>9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

<HD2>10. Protection of Children from Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

<HD2>11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship

between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

<HD2>12. Energy Effects

This proposed rule is not a "significant energy action" under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

<HD2>13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

<HD2>14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f). Due to potential environmental issues, we conducted an environmental assessment last year for both the issuance of the marine event permit and the establishment of this special local regulation. The same environmental assessment is being used for this year's event as it is substantially similar in all aspects and therefore the potential effects and alternatives would remain unchanged. After completing the environmental assessment for the issuance of the

marine event permit and the establishment of these special local regulations, we have determined these actions will not significantly affect the human environment. The environmental assessment and finding of no significant impact (FONSI) are available in the docket where indicated under <ET='02'>ADDRESSES</E>. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.
